To UNW Members who are GNWT Employees

April 1, 2016

Your Union of Northern Workers bargaining team met with the GNWT's negotiating committee for three days this past week.

We tabled proposals with the Employer to improve Appendix A9 (College Educators).

We also discussed a proposed Memorandum of Agreement between the parties on how to safeguard good mental health in the workplace, and we provided the GNWT bargaining team with a counter-proposal in which we incorporated some of the Employer's key points.

In addition, should the GNWT intend to reduce the workforce, your Union presented the Employer with language that we believe should guide any such process. Attached are the key principles proposed by your Union bargaining team.
